

Swisscom blue TV on any device

(even when you are on the move)

With Swisscom's free blue TV app, you can watch Live TV and Replay programmes and your own recordings* on your smartphone or tablet. Browse through the TV listings while out and about and save the interesting stuff for later. Further information is available at www.swisscom.ch/tvapp

Programmes with  can be downloaded and watched later without an internet connection. And on your computer: <http://tv.blue.ch>

View your photos on your television

With Swisscom blue TV, you can now view your videos and photos on your TV.

- > Set up a free account at www.mycloud.ch
- > Select «Connect to TV» in the top right-hand corner below your initials

The photos you have saved on myCloud can now be viewed on your television:

- > «home» button > Apps > 

Accessibility

We support subtitles, audio descriptions and sign language overlays. These can now be activated centrally, and programmes on which they are available are visibly marked.

- > «home» button >  > Display > Accessibility

Accessibility instructions can be found at: www.swisscom.ch/TVaccessibility

Swisscom Box

(with voice assistant)

Talking to the remote control

(Swisscom Box and Swisscom Box 21)

You can use the voice control. The microphone is only active while you are pressing the button. Hold the remote control about 30 cm from your mouth and speak into the microphone normally.

- > Press and hold the button 
- > speak clearly
- > release the button  again

Example:

- > Press the  button and say «Go to SRF eins».

You can also type in search  terms:
> «option» button > «ok» > type the search term

Swisscom Box 21

Talking to the Swisscom Box

(Swisscom Box only)

The Swisscom Box is delivered with the microphones switched off. To make sure that the voice assistant is working properly, switch on the microphones by pressing the switch on the side of the Swisscom Box.

«Hey Swisscom, go to SRF zwei»

Your Swisscom Box will doze around the clock and when there is any noise, allowing you to speak freely without it reacting. But say «Hey Swisscom» and she will wake up and listen to you. Now you can tell it what you want to do.

«Hey Swisscom, switch on the Sonos device»

Whether it's play music on Spotify, view your myCloud photos on the TV screen or search for your favourite show.

«Hey Swisscom, I want to watch a thriller»

You can speak to the box as you pass by, even before you sit down with popcorn in hand.

«Hey Swisscom, turn up the volume, please»

Further information on the supported functions and the data protection regulations is available at:
> «home» button >  > Voice Assistant

The LEDs and what they mean

(Swisscom Box only)

White light – TV is switched on.

White flashing light – remote control is being used.
